

NAME _____

LIBRARY ORIENTATION PROJECT
Searching in Destiny

Search for the following titles in Destiny. Write the complete call number for each one.

1) *Nickel and Dimed* _____

2) *The Boy Who Invented Television* _____

3) *Ghostopolis* _____

4) *Halt's Peril* _____

5) *Masters of Illusion* _____

6) Write your famous person's name (spell it correctly!): _____

Search for that person in Destiny.

7) What is the total number of titles in the search results? (Don't count them—you can find the total on the screen.) _____

One of your sources for this orientation project will be an article about your famous person found in a print reference book. If the **total number of titles** in your search results was **25 or less**, simply **scroll down and count** the number of titles with **call numbers beginning with REF**. Do the same thing if the total was **more than 25**, but **first click on Show All** (upper right) so that you don't miss any of the results.

8) What is the total number of reference titles in the search results? _____

Select **one** of the reference books that does include an article about **your** person. Don't just write down any of the titles—first verify that your person **is** in the book by clicking on **Details** and **looking for the yellow highlighting** (for example, **George Washington** must be highlighted—NOT **George** Martin and **Henry Washington**). Write down the title and call number of that book.

9) Title of reference book: _____

Complete call number: _____

10) What is the name of one other person about whom there is an article in this book? _____

If you have time after completing questions 1-10, do the bonus question below.

Bonus (two bonus points for accurately completing both lines)

Search for a topic of your choice in Destiny. Write the title and complete call number of a **nonfiction book** on that topic (if there isn't one, try a different topic!).

Title of book: _____

Complete call number: _____
